

Winnebago County
Land & Water Conservation Department

Water Quality Improvement Program – Application

Landowner(s)

✕ Name: _____

✕ Address: _____

✕ City: _____ State: WI Zip Code: _____

✕ Phone: (Home or Cell) () (Work) ()

Project Location

Township: _____ Section: _____ Quarter Section: _____ 1/4 _____ 1/4

Nearest Road(s) Reference: _____

Which Category Best Describes Problem (circle one)

Shoreline/Streambank Erosion

Animal Lot/Manure Runoff

Soil Erosion

Groundwater Contamination

Other (describe): _____

Describe proposed work to
be done:

Well Abandonment

Indicate the approximate date proposed work would be done: _____ / _____
month year

✕ Landowner's Signature: _____ Date: _____

Project Eligibility Sheet

THIS SIDE OF SHEET FOR LAND & WATER CONSERVATION DEPARTMENT USE ONLY

Shoreline/Streambank Erosion Eligibility Criteria

_____ Any landowner with a site experiencing soil loss greater than 1 ton of soil per year with adjacent wetland or aquatic vegetation may apply for financial assistance.

_____ Any landowner with a site experiencing soil loss greater than 3 tons of soil per year may apply for financial assistance.

Shoreline Habitat Restoration for Developed Areas (SHRUB) Eligibility Criteria

_____ Any landowner with a site that: exhibits poor soil stability adjacent to their shoreline; has the potential to deliver nutrients/pollutants to waterbody/ies; has depleted wildlife habitat or benefit (little/no native vegetation) along their shoreline, and where,

the landowner agrees to NOT utilize fertilizers containing phosphorous.

Animal Lot/Manure Runoff Eligibility Criteria

_____ Any landowner with a site contributing 50 pounds or more of phosphorus to surface water per year may apply for financial assistance for all barnyard runoff control practices necessary to reduce the phosphorus loading below 15 pounds per year.

_____ Any landowner with a site that contributes 15 - 49 pounds of phosphorus per year to surface water may apply for financial assistance for clean water practices.

_____ Any landowner required by County Ordinance and/or State Law to do nutrient management planning (NMP) may apply for financial assistance.

_____ Any landowner voluntarily doing NMP may apply for financial assistance.

Soil Erosion Eligibility Criteria

_____ Any landowner with a cropped field within 1,000 ft of surface water and a soil loss of 1/2 T or higher based on the current soil loss prediction model may apply for financial assistance for high residue management.

_____ Any landowner with a field experiencing gully erosion, as determined by LWCD staff, may apply for financial assistance for a grassed waterway or other needed BMPs.

Groundwater Contamination Eligibility Criteria

_____ Any landowner with a dug or drilled well removed from service, posing a threat to groundwater quality and/or public safety as determined by LWCD staff, may apply for financial assistance.

_____ Any landowner with a naturally occurring sink hole and/or direct conduit to groundwater, posing a threat to groundwater quality and/or public safety as determined by LWCD staff, may apply for financial assistance.

LWCD STAFF: Attach all comments and supporting computations on a separate sheet.

NOTE: Landowners receiving cost-sharing from the Winnebago County Water Quality Improvement Program must be in compliance with applicable Agricultural Performance Standards or have a schedule to achieve compliance on file with LWCD.
